- Can fit discreetly into purses, totebags, fannypacks or backpacks
- Quick & effective test
- Available in three formats: Coaster, bi-fold & tri-fold

## UNDERSTANDING THE ISSUE

*Creating Awareness For Consumers & Taking a Stand Against Sexual Assault*

**Drugs** such as **Ketamine** & **GHB** are commonly used to alter the victim's **mental** and **physical** capacities – prohibiting them from **defending** themselves, remembering the incident, or making them feel **helpless**.

These substances have no **colour**, **odour** or **taste**, making it a lot **harder to detect** and most often mixed into the **victim's drink** without their knowledge. Education and awareness are key to mitigating instances of assault at social gatherings.

Available in  
convenient  
packs of:  
**5, 10 & 25**
