Patient-Centred Care
Digital Innovation

SpecCheck Rapid RA Test (with Results+ Patient Reporting)

The RF (Rheumatoid Factor) Rapid Test Cassette (Serum/Plasma) is a professional in vitro diagnostic test for the qualitative detection of Rheumatoid Factor, an autoantibody most relevant in Rheumatoid Arthritis.

Our new Results+ platform has been integrated with this test to quickly and efficiently provide test results to your consumers on the spot!

Identify whole blood specimens with 97.8% Accuracy.

Obtain results in just 10 minutes.

Detect Rheumatoid Factor and provide patients with swift guidance.

Patient-Centric Services

Improve patient care by offering value added screening services in-store. Pharmacists can help address current backlogs within hospitals & clinics and minimize the strain on the Canadian healthcare system

Digital Innovation with Results+

As healthcare delivery evolves and digital innovation persists, we want to help bridge the gap between medical device and software. Capture test images and print and/or email results with one click of a button!

Accuracy & Reliability

Excellent correlation to laboratory results. Quick, accurate & reliable results for enhanced healthcare.
