From business planning and purchasing to operational delivery, Spectrum MDX brings you a wealth of clinical, managerial and commercial experience you can count on.

Point of Care Screening: Women's Health

hCG Pregnancy (OTC)

The Spectrum MDX hCG Pregnancy Screening Products are expertly crafted to provide fast and dependable identification of pregnancy-associated hormones in urine.

The Spectrum MDX hCG Pregnancy Screening Products are expertly developed to efficiently and accurately identify pregnancy-associated hormones in urine.

Ideal for over-the-counter application, these products boast straightforward, easily interpretable results and are highly sensitive to detecting the human chorionic gonadotropin (hCG) hormone.

Specifications

- Capable of detecting pregnancy up to six days before the missed period.
 - Reliable detection of hCG levels in urine, ensuring dependable results.
 - Rapid results within 3 minutes, allowing for immediate insight.
 - Designed for discreet and private use at home.
 - Detailed guidelines provided, ensuring accurate testing and interpretation.
 - Simple urine test, non-invasive and pain-free.
 - Single-use design ensures hygiene and eliminates the need for cleaning or maintenance.
-

LH Ovulation (OTC)

The Spectrum MDX LH Ovulation Screening Products are specially designed to facilitate ovulation tracking through the detection of luteinizing hormone (LH) surges in urine.

The Spectrum MDX LH Ovulation Screening Products are specifically designed to help monitor ovulation by identifying surges in luteinizing hormone (LH) in urine.

Perfect for those looking to either conceive or prevent pregnancy, these tests provide accurate results and are user-friendly.

Specifications

- Simple, one-step process suitable for in vitro self-testing.
- Detects LH surge effectively, aiding in ovulation prediction.
- Quick interpretation of results within 10 minutes.
- Urine-based test, ensuring comfort and privacy.
- Based on individual menstrual cycles for optimal timing.
- Single-use, disposable strips with no need for additional equipment.
- Includes procedural control for assured testing accuracy.
- Clear instructions and easy interpretation of results.

Results+

Patient Data Management

Spectrum MDX is a data-driven organization geared to helping healthcare professionals offer enhanced treatment to patients. We have developed an innovative patient / results management platform (called 'Results+') to support practitioners and clinicians in the interpretation, recording and communication of diagnostic results for individuals using our POC devices.

- **Immediate Access to Results:** Quicker treatment decisions and enhanced patient outcomes.
- **Automated Data Entry:** Reducing errors and streamlining processes.
- **EHR Integration:** Making test results instantly available to care teams.
- **Remote Monitoring:** Enhancing care for remote or less mobile patients.
- **Decision Support:** Guiding healthcare providers with evidence-based recommendations.
- **Quality & Compliance:** Ensuring test accuracy and meeting regulatory standards.

Our Values

Trust

At Spectrum Medical Diagnostics, trust is the cornerstone of our operations. We understand the critical nature of our services and products and strive to maintain the highest standards of integrity and transparency. Our clients and partners can always rely on us to deliver consistent, accurate, and dependable solutions.

Diversity

Diversity is not just a value; it's our strength. We believe in embracing different perspectives, backgrounds, and ideas. This inclusive approach enriches our organizational culture and drives innovation, ensuring that we cater to the diverse needs of the communities we serve.

Innovation

Innovation is at the heart of our growth in a rapidly evolving healthcare landscape. We continuously invest in research and development, seeking the latest technologies and methodologies. This commitment ensures we remain at the forefront, offering cutting-edge solutions addressing current and emerging healthcare challenges.

Care

Above all, we care. Our dedication to enhancing patient outcomes and supporting healthcare professionals is unwavering. Every product we develop, every service we offer, is a testament to our deep-rooted commitment to improving lives and making a positive impact on global health.
